

Manual Geometric Correction of Landsat-5, TM Combination IRm2,G,B

Author: Christopher Jose Pintado Sacquirin

- Check Points
- Control Points

The correction of the image was conducted through the manual placement of check points, control points, and tie points, sourced from various cartographic references. These references include an orthophoto from the PNOA, a topographic map from the ICGC at a scale of 1:25,000, and GPS points.

Reference System UTM zone 31 Northern Hemisphere with ETRS89 datum
Canel
Date of Landsat-5 image: 15-05-1992
